

Mr. Dragoş PREDA

State Secretary, Ministry of Transportation, Infrastructure and Communications

Romania

Currently, Secretary of State for TeleComm within the Ministry of Transport Infrastructure and Communications (MTIC) and vice-president of PNL District 1, with an expertise forged in over over 13 years of experience in central public and international local administration, Mr. Dragoş Preda has also participated as a coordinator in the elaboration of 5 national strategies and numerous other legislative provisions.

Passionate about strategy and prospective studies, Mr. Preda has been since 2011 part of the Romania node of the Millennium Project initiated by the Smithsonian Institution, The Future Group International and United Nations University (UNU), participating at the elaboration of numerous national and international studies on the Future of Technology, the Future of the Labor Market or the Future of Education. DP is also member of the board of advisors of the Executive Blockchain Laboratory, initiated by ICI Bucharest, and has been involved in launching tech start-ups.

Mr. Dragoş Preda graduated École Nationale d'Administration (ENA) as a fellow scholar of the Government of the French Republic, as well as alumnus of two master's programs of Paris 1 Panthéon-Sorbonne, his BA alma mater University.
