

Mr. Florian Pennings
EU Cybersecurity Policy Manager, Microsoft

Florian Pennings works for Microsoft as EU Cybersecurity Policy Manager. According to him, industry collaboration and multi-stakeholder management is important to ensure strong cybersecurity and this requires constant engagement and transparent discussions. Before joining Microsoft, he worked at the Dutch National Cyber Security Center (NCSC) and at the EU Cybersecurity Agency (ENISA) coordinating strategic and tactical cooperation with industry and public stakeholders. At Microsoft Florian drives public private cooperation on relevant cybersecurity files related to critical infrastructure (NISD), cybersecurity certification (Cybersecurity Act), and cybersecurity strategies.
