

Mr. Cristian SFICHI
Manager for Defence, Thales Romania

With a degree in Nuclear Physics and an MSc from Royal Defence Academy and Cranfield University in “International Defence Sales & Marketing” , Cristian has been in the aerospace, defence and security industry for nearly 25 years. Starting as a junior marketing officer of Racal radios (now Thales) in Romania, he has been involved in the first of its kind, transfer of tactical radio technology program to a Romanian company named Elprof SA. It was one of the first defence industrial projects after 1989.

He then, successfully led a multidisciplinary manufacturing team of engineers from ROMAERO, to deliver on budget and on time aerospace projects for Airbus UK, GKN and BAE Systems.

The latter has then, opened its presence in Romania and inaugurated its Regional Representative Office, correlated with the transfer from the Royal Navy of 2 Type 22 Frigates to the Romanian Navy, namely “Regele Ferdinand” and “Regina Maria”.

Cristian was then appointed, BAE Systems Director Marketing –Southern Europe Office which he successfully run until he joined Thales in 2017.

Ever since, he enjoys working for a great team and company in Romania.
