

Dr. Gustaf WINROTH

Policy Officer – Defence Research, DG Defence Industry and Space European Commission

Dr Gustaf Winroth works in the European Commission as a Policy officer for defence research at the Directorate General for Defence Industry and Space, DG DEFIS. He is a part of the team implementing the European Defence Fund (EDF), as well as the pilot calls under Preparatory Action on Defence Research (PADR) and European Defence Industrial Development Programme (EDIDP). He has previously worked in the Directorate General for Research and Innovation, DG RTD, working on research programmes under the seventh framework programme, Horizon 2020 and the new Horizon Europe framework programme. More specifically he has worked on the industrial public-private partnerships for research as well as the public-public partnerships on Metrology. Prior to joining the European Commission, he was working in semiconductor research, and in particular front-end process integration and photolithography. He holds a PhD in Physics from University College London (UK), and a MSc in Applied Physics and Electrical Engineering from Linköping Institute of Technology in Sweden.
