Nicolae Vilceanu, Network Director at Vodafone Romania

Nicolae Vilceanu joined Vodafone Romania in 2001 as RAN Engineer and gradually progressed to Head of Network Development and TES, steering multiple strategic initiatives across network domains. He led the technical team for mobile network sharing in 2013 and 2018.

In 2019 he moved to Vodafone Albania as Technology Director and led the convergence transformation further to the acquisition of a fixed operator as well as mobile network optimization, achieving Ookla Top 10 fastest Mobile Network worldwide. He also introduced Agile in IT, Pega & Big Data.

In 2021 he joined Vodafone Greece as Network Director leading the mobile and fixed network transformation, 4G & 5G development, network resiliency and reliability programs. Currently, he is the Network Director of Vodafone Romania.
