

Professor Dr. Teodor – **Ioan TRAȘCĂ**

Vice Rector at University of Agronomic Sciences and Veterinary Medicine of Bucharest
Romania

Mr. Teodor Ioan Trașcă is a professor and PhD coordinator in Food engineering both at the University of Agronomic Sciences and Veterinary Medicine of Bucharest, and at the University of Life Sciences „King Michael I” from Timisoara, Romania.

After graduating from the Faculty of Mechanics of the Polytechnic University of Timisoara in 1996, Teodor – Ioan Trașcă dedicated himself to research and education in food engineering, becoming a PhD in Food equipment in 2003 and occupying the academic grades to the full professor position.

The very good experience in higher education led him to leadership positions as Dean of the Faculty of Food Engineering at the University of Life Sciences "King Michael I" from Timisoara, Vice Rector at the same university.

Currently, Teodor – Ioan Trașcă is Vice Rector at the University of Agronomic Sciences and Veterinary Medicine of Bucharest, Vice-President of the Romanian Agency for Quality Assurance in Higher Education, and associate member of the Romanian Academy of Agricultural Sciences and Forestry, Vice-Chair of the ICA-Edu executive committee of the European Association of Life Science Universities.

His entire professional activity of over 27 years involves teaching and research in life sciences, especially food engineering, development of sustainable food systems, and quality assurance in higher education.
