

**Tudor GALOȘ**, Senior Privacy & AI Consultant at Tudor Galos Consulting,  
Romania

Tudor Galoș stands as a preeminent figure at the intersection of data privacy and emerging technologies, serving as the Senior Privacy & AI Consultant at Tudor Galos Consulting. With a career spanning over two decades in management, sales, and marketing, he is a certified and well-known privacy expert as well as a leader for AI governance and digital ethics. Holding prestigious ECPC certifications from European Centre on Privacy and Cybersecurity at Maastricht University on DPO, Privacy Management and AI Trust & Privacy, Tudor leverages a multidisciplinary background to help over 250 global companies across North America, South America, EU, UK, and Middle East navigate the regulatory complexities of healthcare, finance, and digital advertising. His unique "growth-hacking" mindset, combined with a rigorous commitment to human-centric innovation, ensures that digital transformation serves as a bridge for building sustainable trust between organizations and their users.

In the high-stakes landscape of the GDPR, EU AI Act, DSA, DMA, DORA and NIS 2, Tudor focuses on future-proofing operations by treating compliance as a strategic competitive advantage rather than a mere administrative hurdle. He has educated more than 15,000 professionals through high-impact training and certification programs, effectively bridging the gap between technical IT security and executive-level strategy. By implementing robust AI governance frameworks and data-driven strategies, he enables businesses to unlock the full potential of generative AI while proactively mitigating ethical and legal risks. His insights, frequently featured in leading industry publications, empower organizations to lead the charge in digital transformation, ensuring they are not merely reacting to new regulations but are actively shaping a responsible and technology-driven future.
